Regression on LETOR

Introduction to Linear Regression

Linear Regression is a classical model in statistics. As a basic pointwise approach, it provides reference for all newly-invented algorithms.

Papers & Docs

The details of Linear Regression can be found from this [Wikipedia page](#).

Notes

This document was written by Da Kuang. The experiments of Regression on LETOR3.0 were conducted by Da Kuang, based on [R-2.8.0](#). If any problem, please contact [letor@microsoft.com](#).
